

# CMU SCORE ANNOUNCEMENT

**Backend**

# Backend

## RESTFull API

CPE APIs that can be implemented include:

- Course /course/detail
- Section /course/section

**SERVER:** <https://api-score.cpe.eng.cmu.ac.th/api/v1>

**CMU OAUTH** that can be retrieved basic information

# Backend

## Database

- **Version:** 6.0.10
- **Cloud Provider** Azure
- **Religion:** Azure/Hong Kong
- **Storage** 512MB

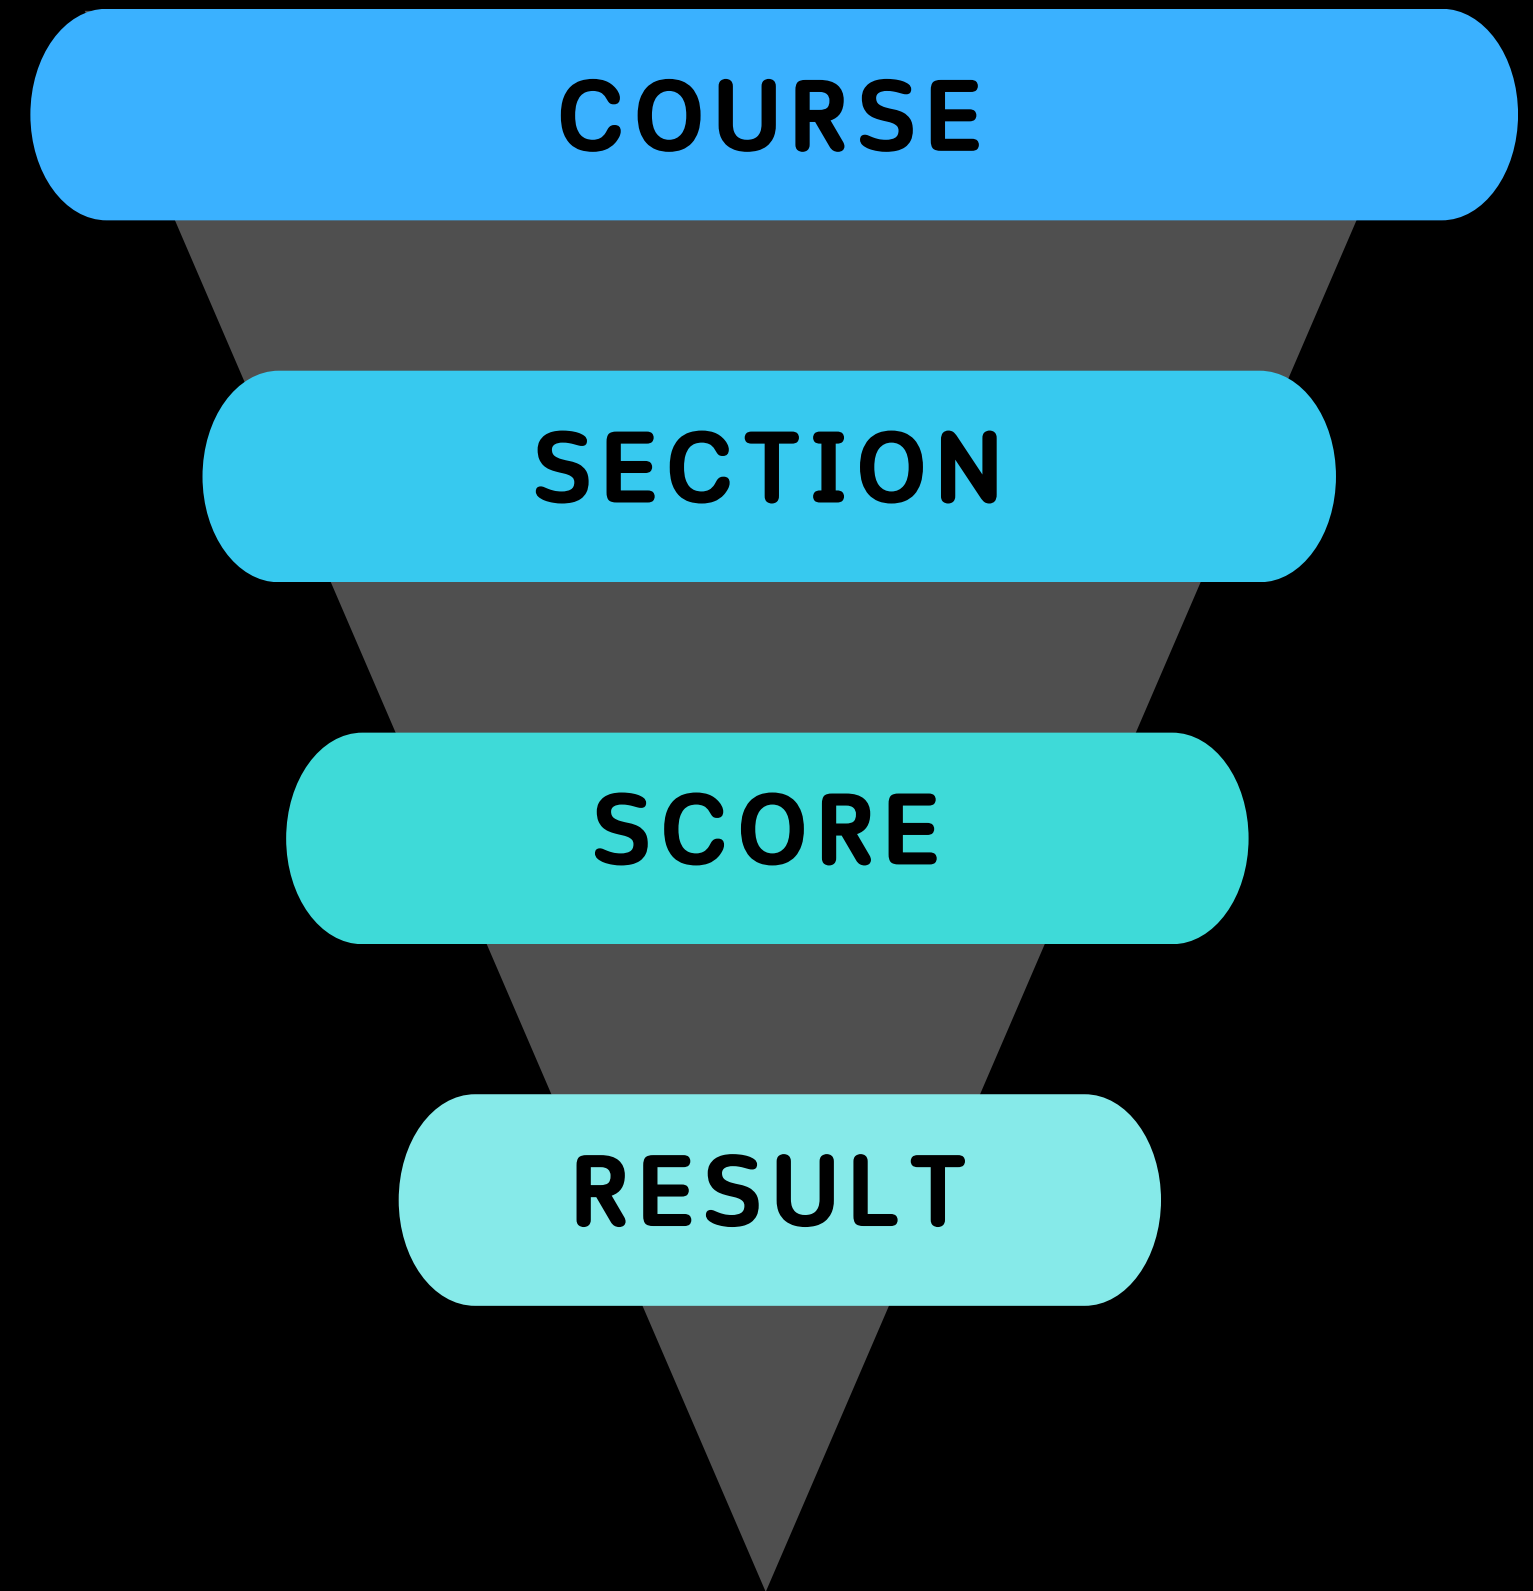

# Backend

## Collection

- scores
- students
- admin\_users
- current<sup>1</sup>

1.Only admin is changeable.

# scores

```
{  
  courseNo: String,  
  courseName: String,  
  year: Number,  
  semester: Number,  
  sections: Array  
}
```

# scores

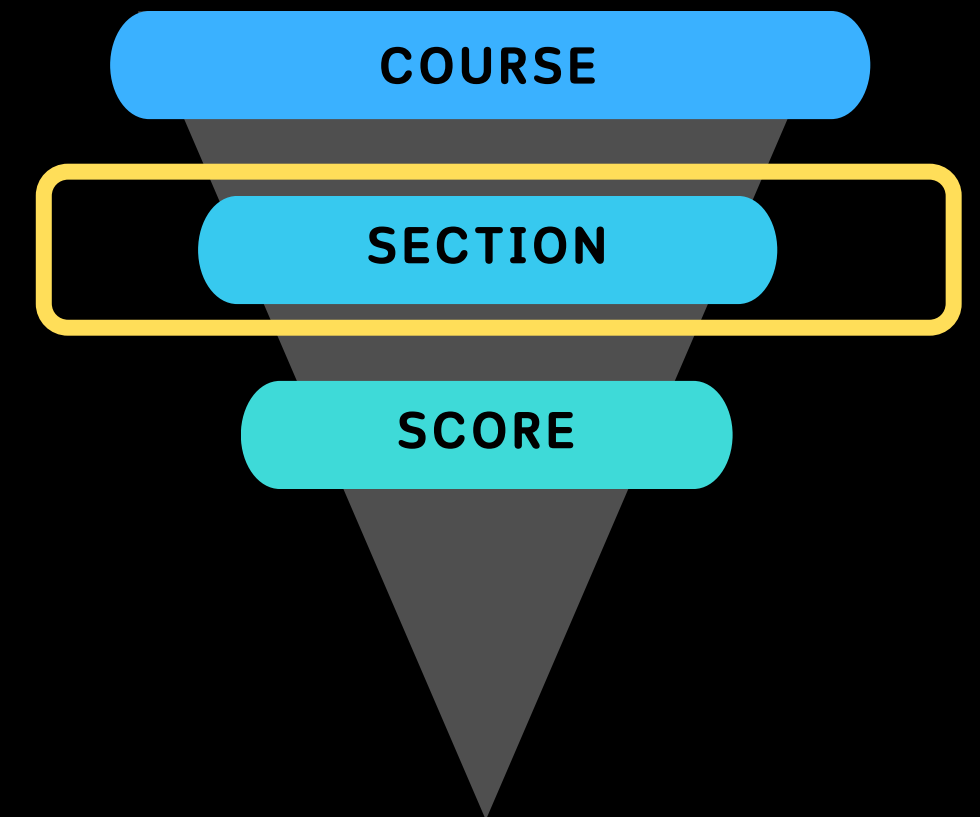

```
sections: [  
  {  
    section: Number,  
    instructor: String,  
    coInstructors: [{ type: String }],  
    scores: Array  
  }  
]
```

# scores

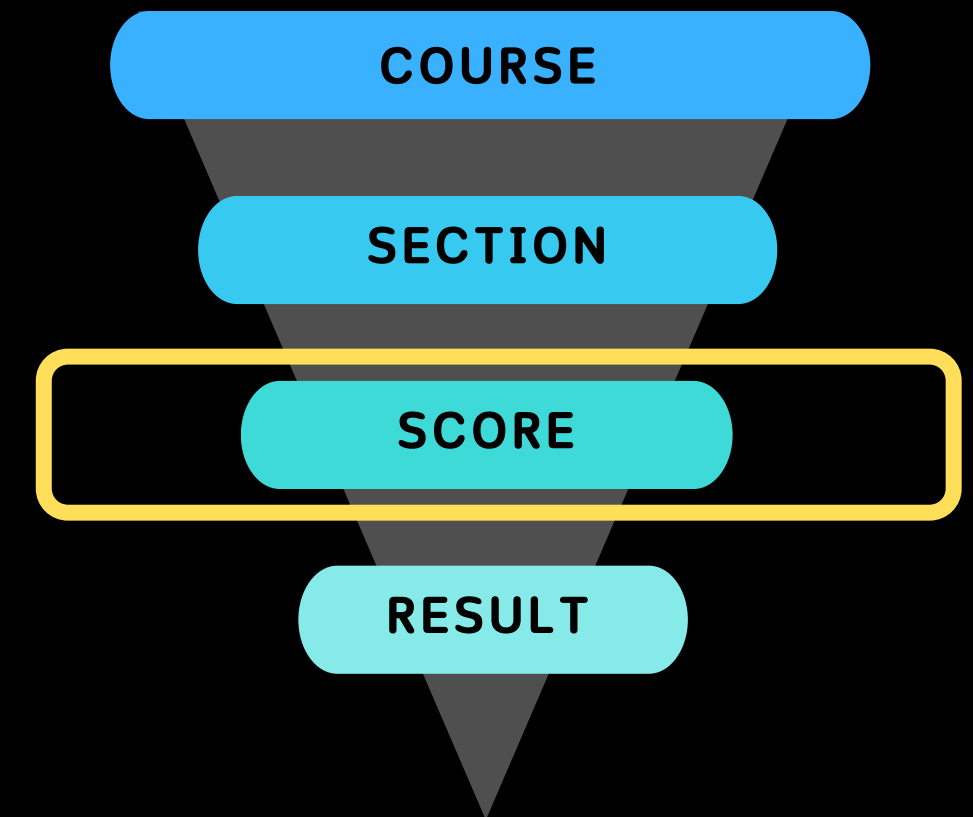

```
scores: [  
  {  
    scoreName: String,  
    studentNumber: Number,  
    fullScore: Number,  
    isPublish: Boolean,  
    results: Array  
  }  
]
```

# scores

```
results: [  
  {  
    student_code: Number,  
    firstName: String,  
    lastName: String,  
    point: Number,  
  }  
]
```

# Backend

## Publish Score

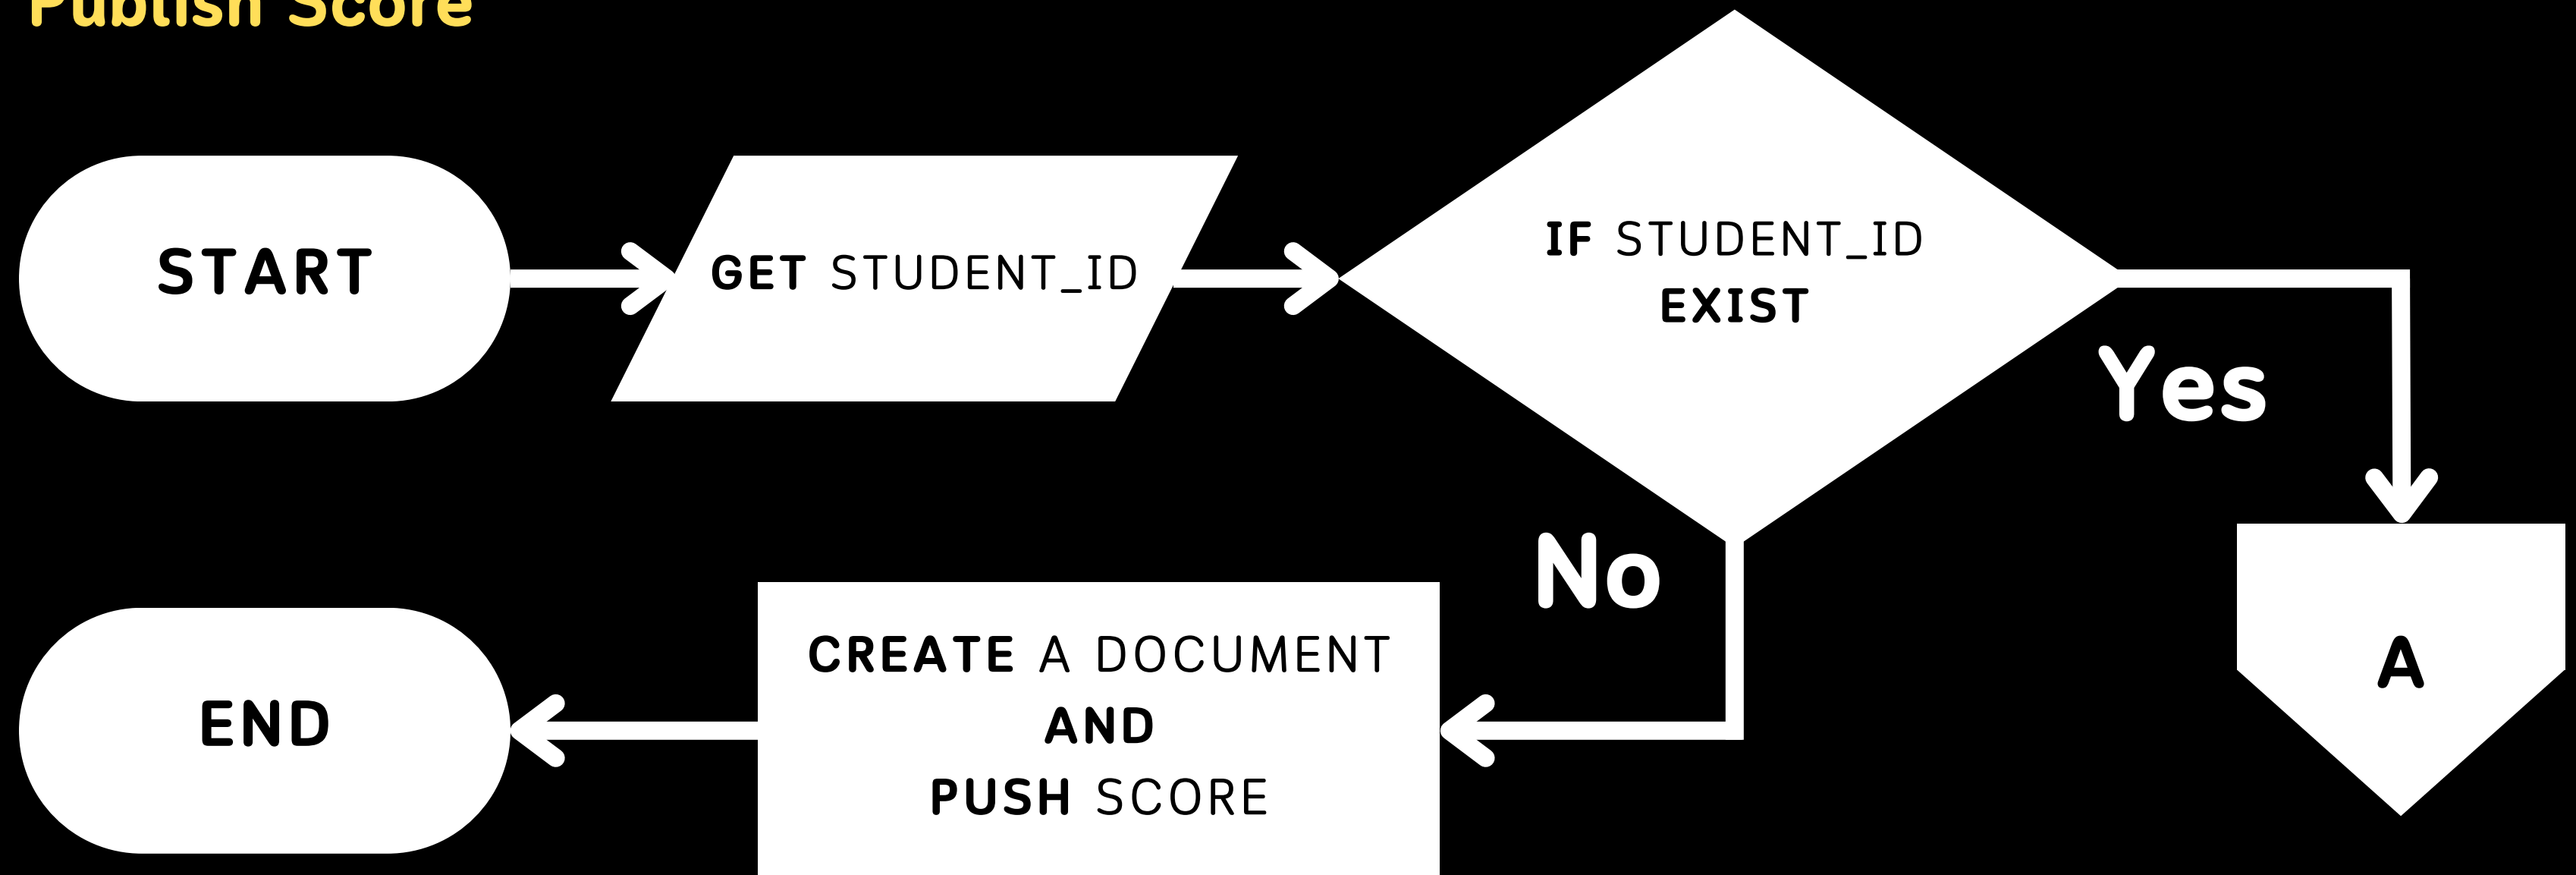

There are 3 cases of score announcement

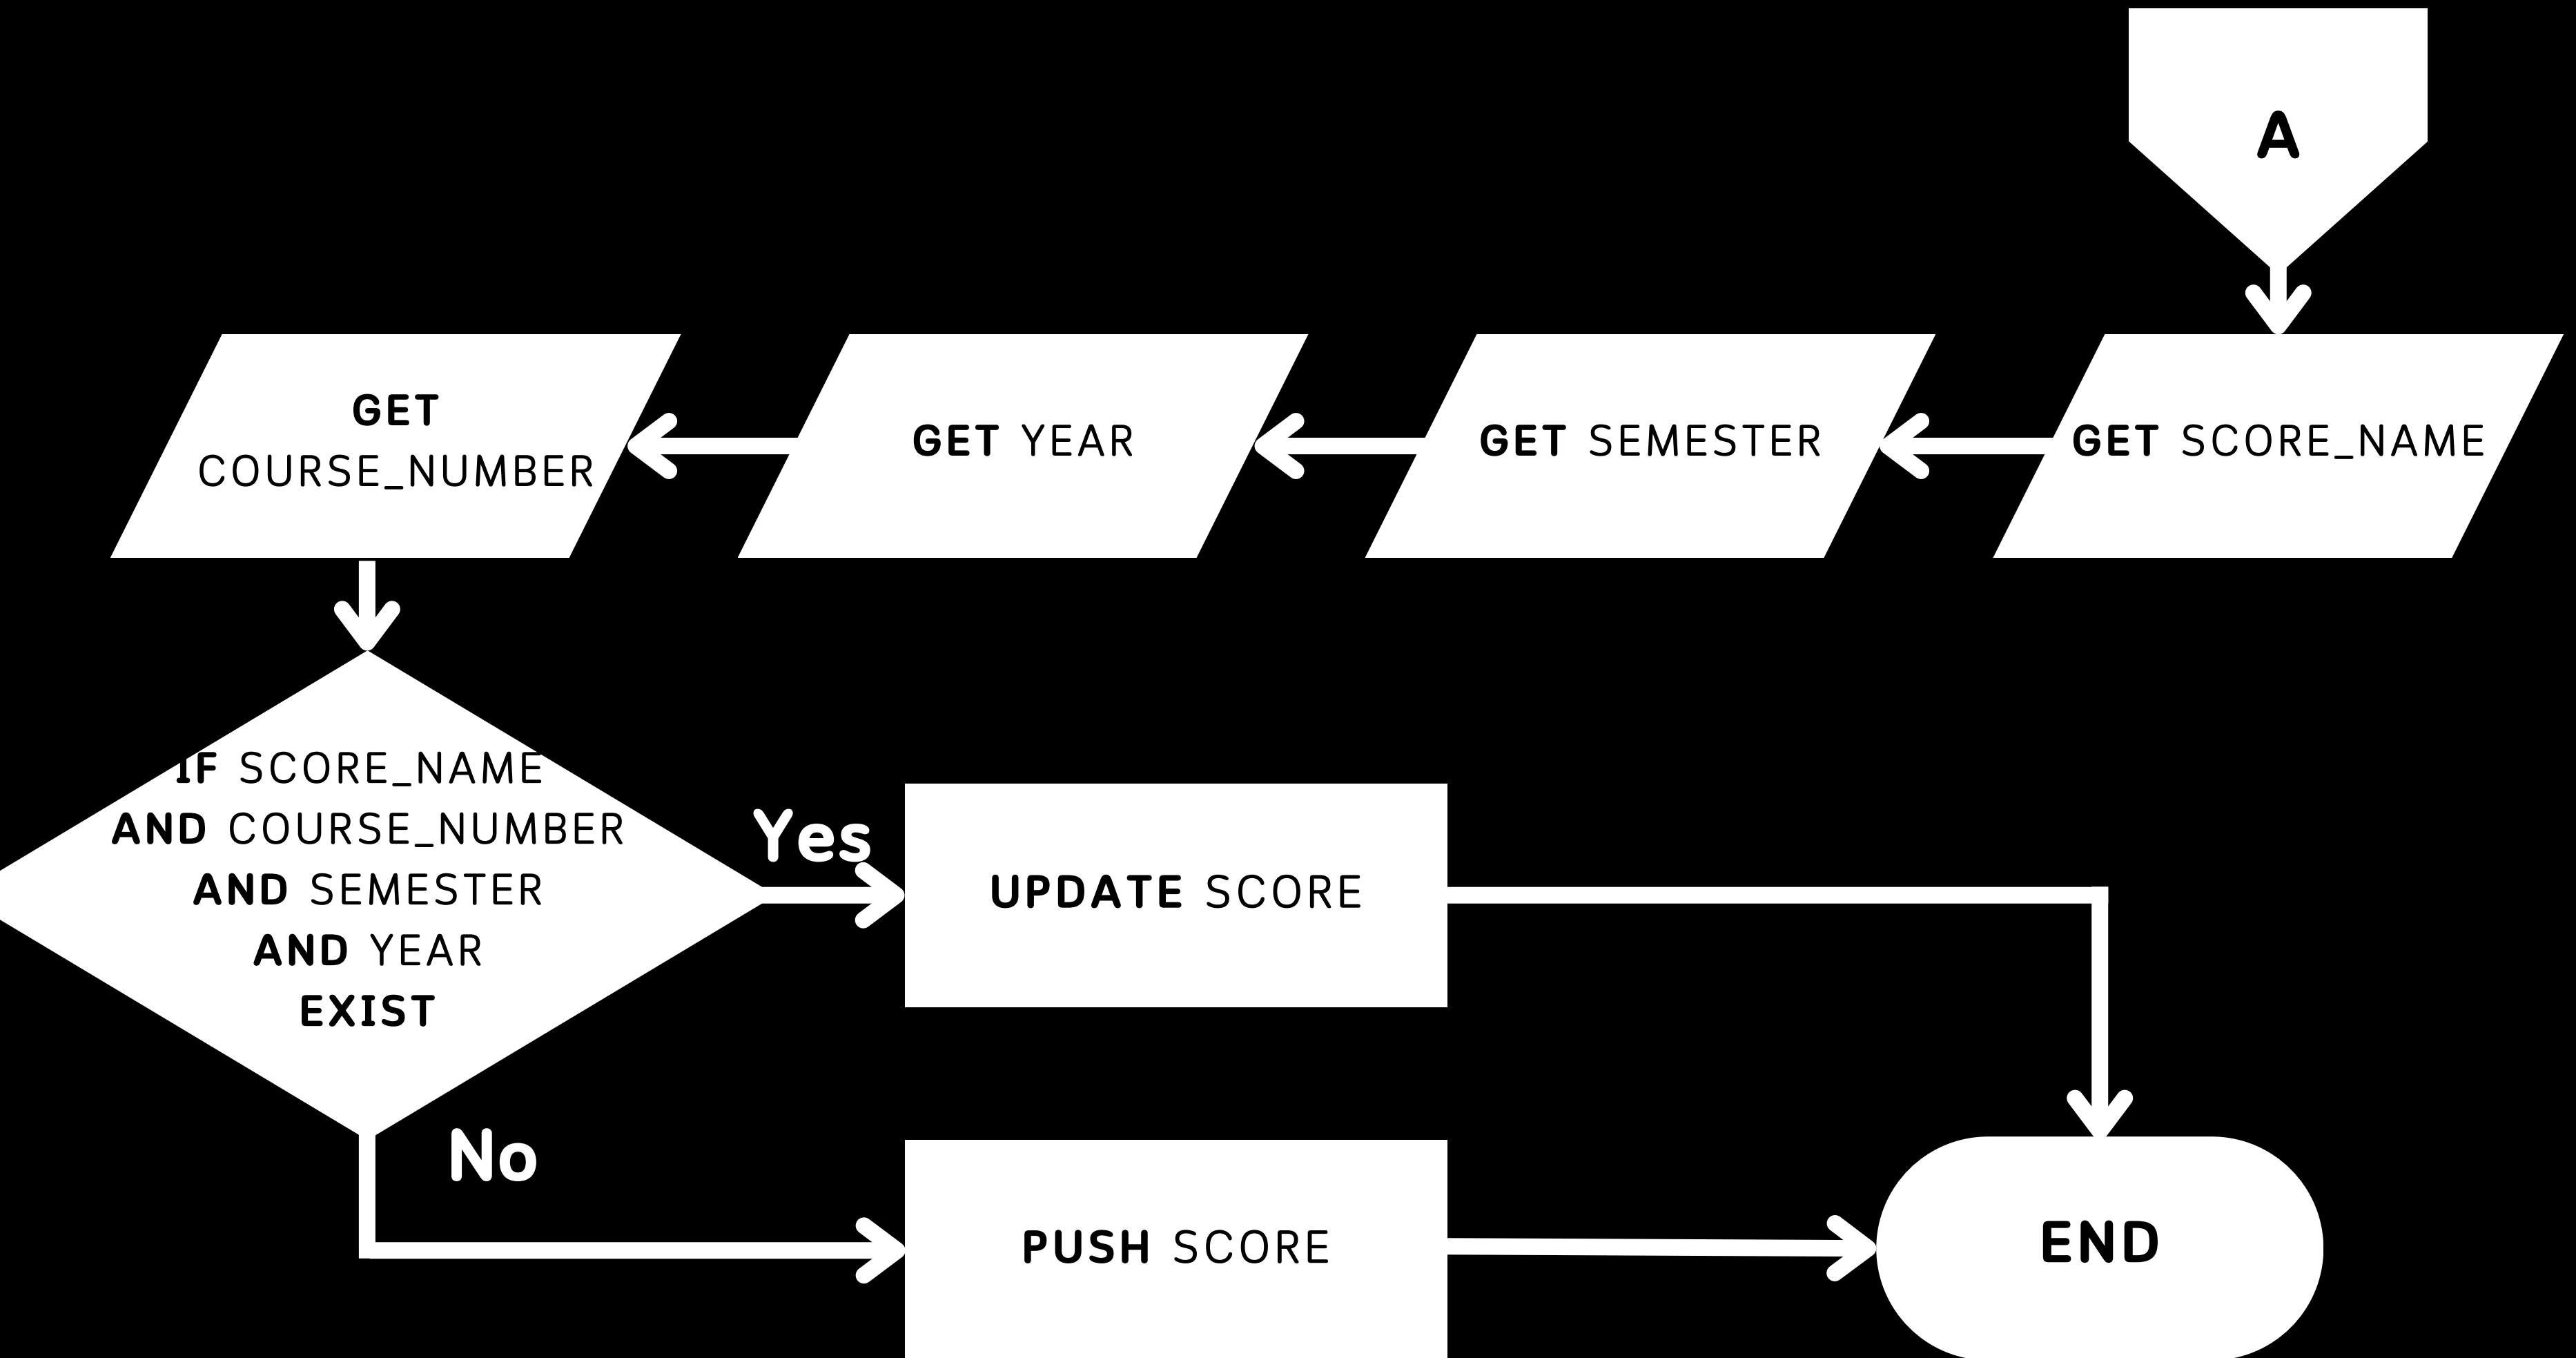

- 1.Publish each score
- 2.Publish each section
- 3.Publish all sections

So, how publish a score looks like?

# Backend

## Publish Score

# Frontend

# Frontend

UI Design

# Figma

# Frontend

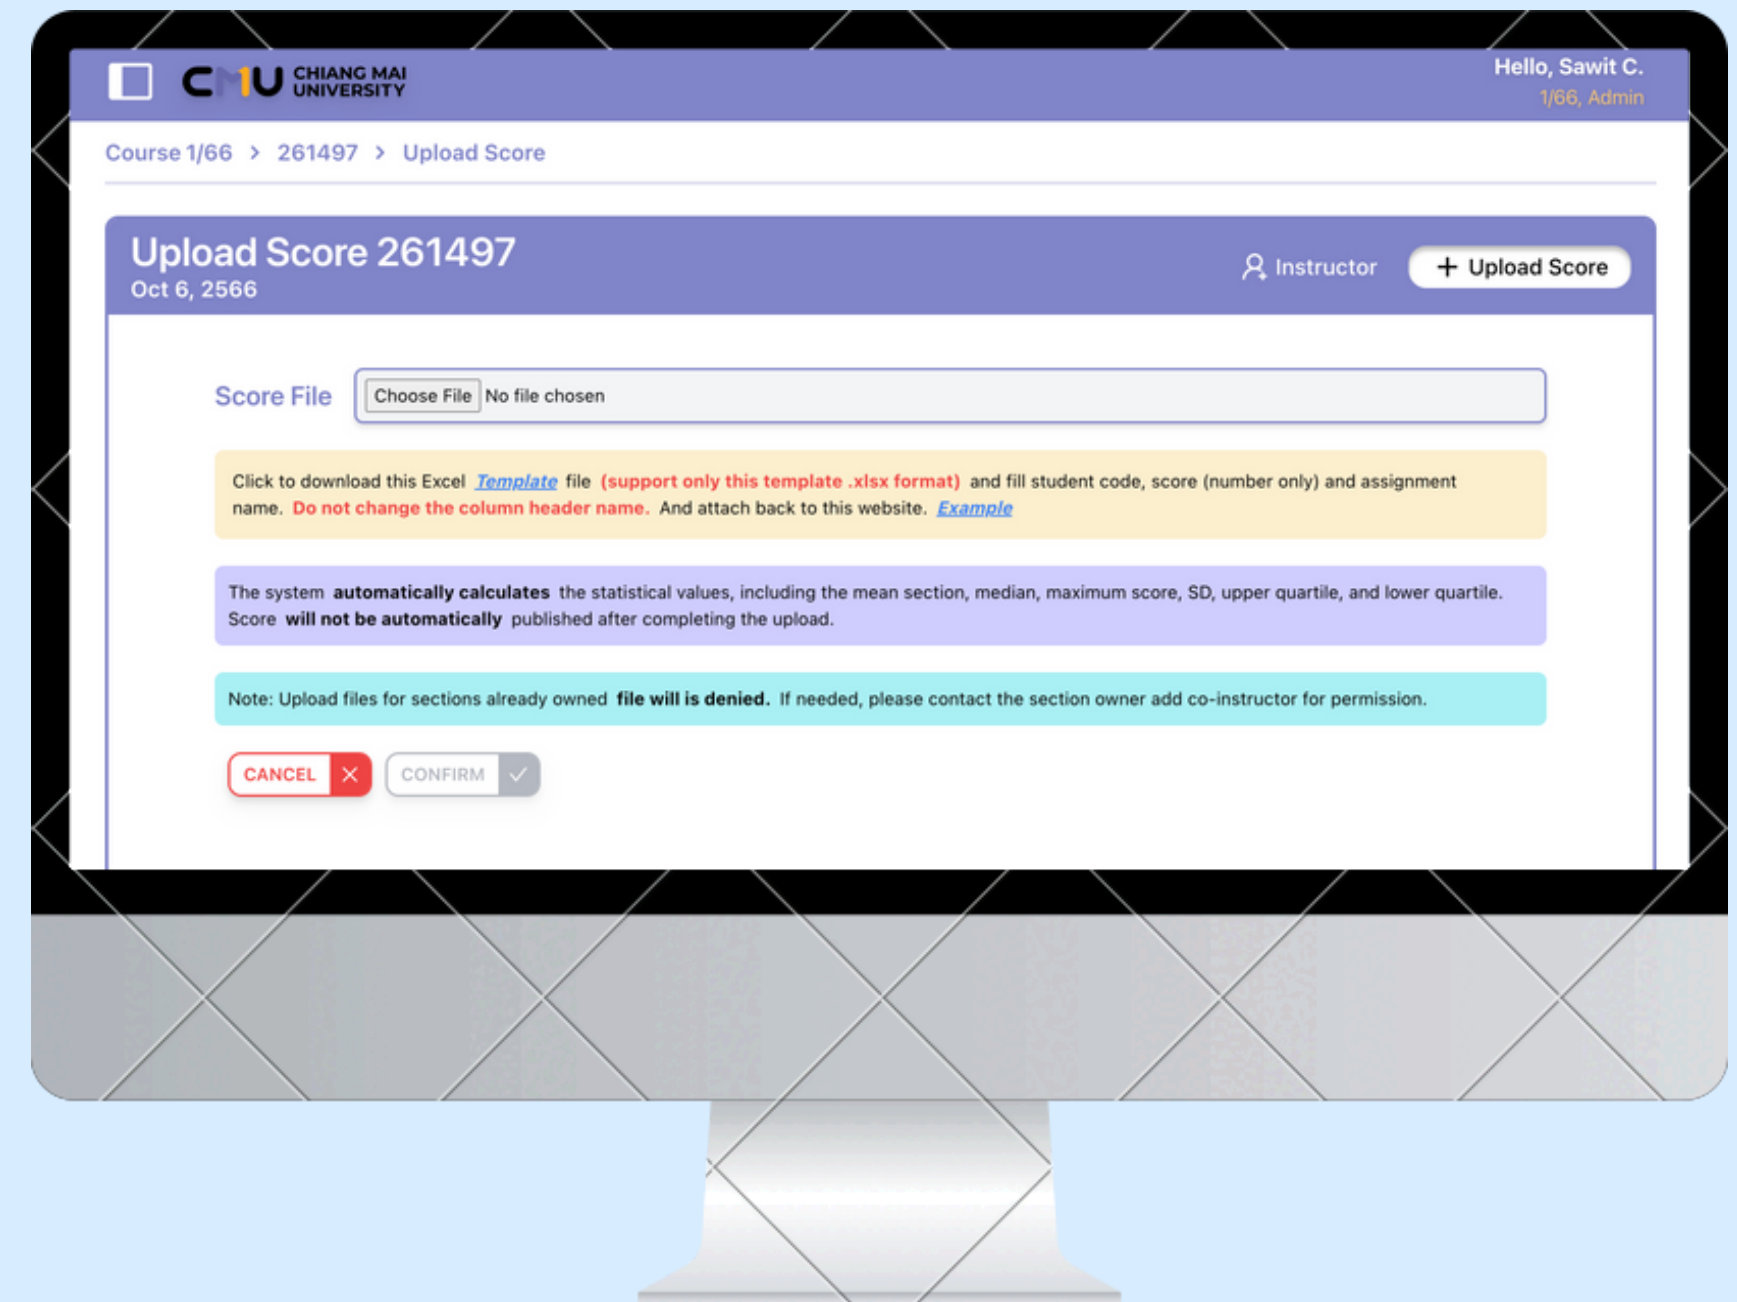

Component Library

# Function

## Instructor

- Course and Semester Selection
- Score Upload via Spreadsheet (.xls format only)
- Detect Character In Spreadsheet
- Multiple Assignments and Sections
- Flexible Score Selection
- Automatic Statistic Calculation
- Publishing Function
- Add/Delete Course
- Autofill Course Name<sup>2</sup>
- Add Co-Instructor
- Edit Score Each Student
- Responsive Display

2. Course names that have an API

# Function

## Student

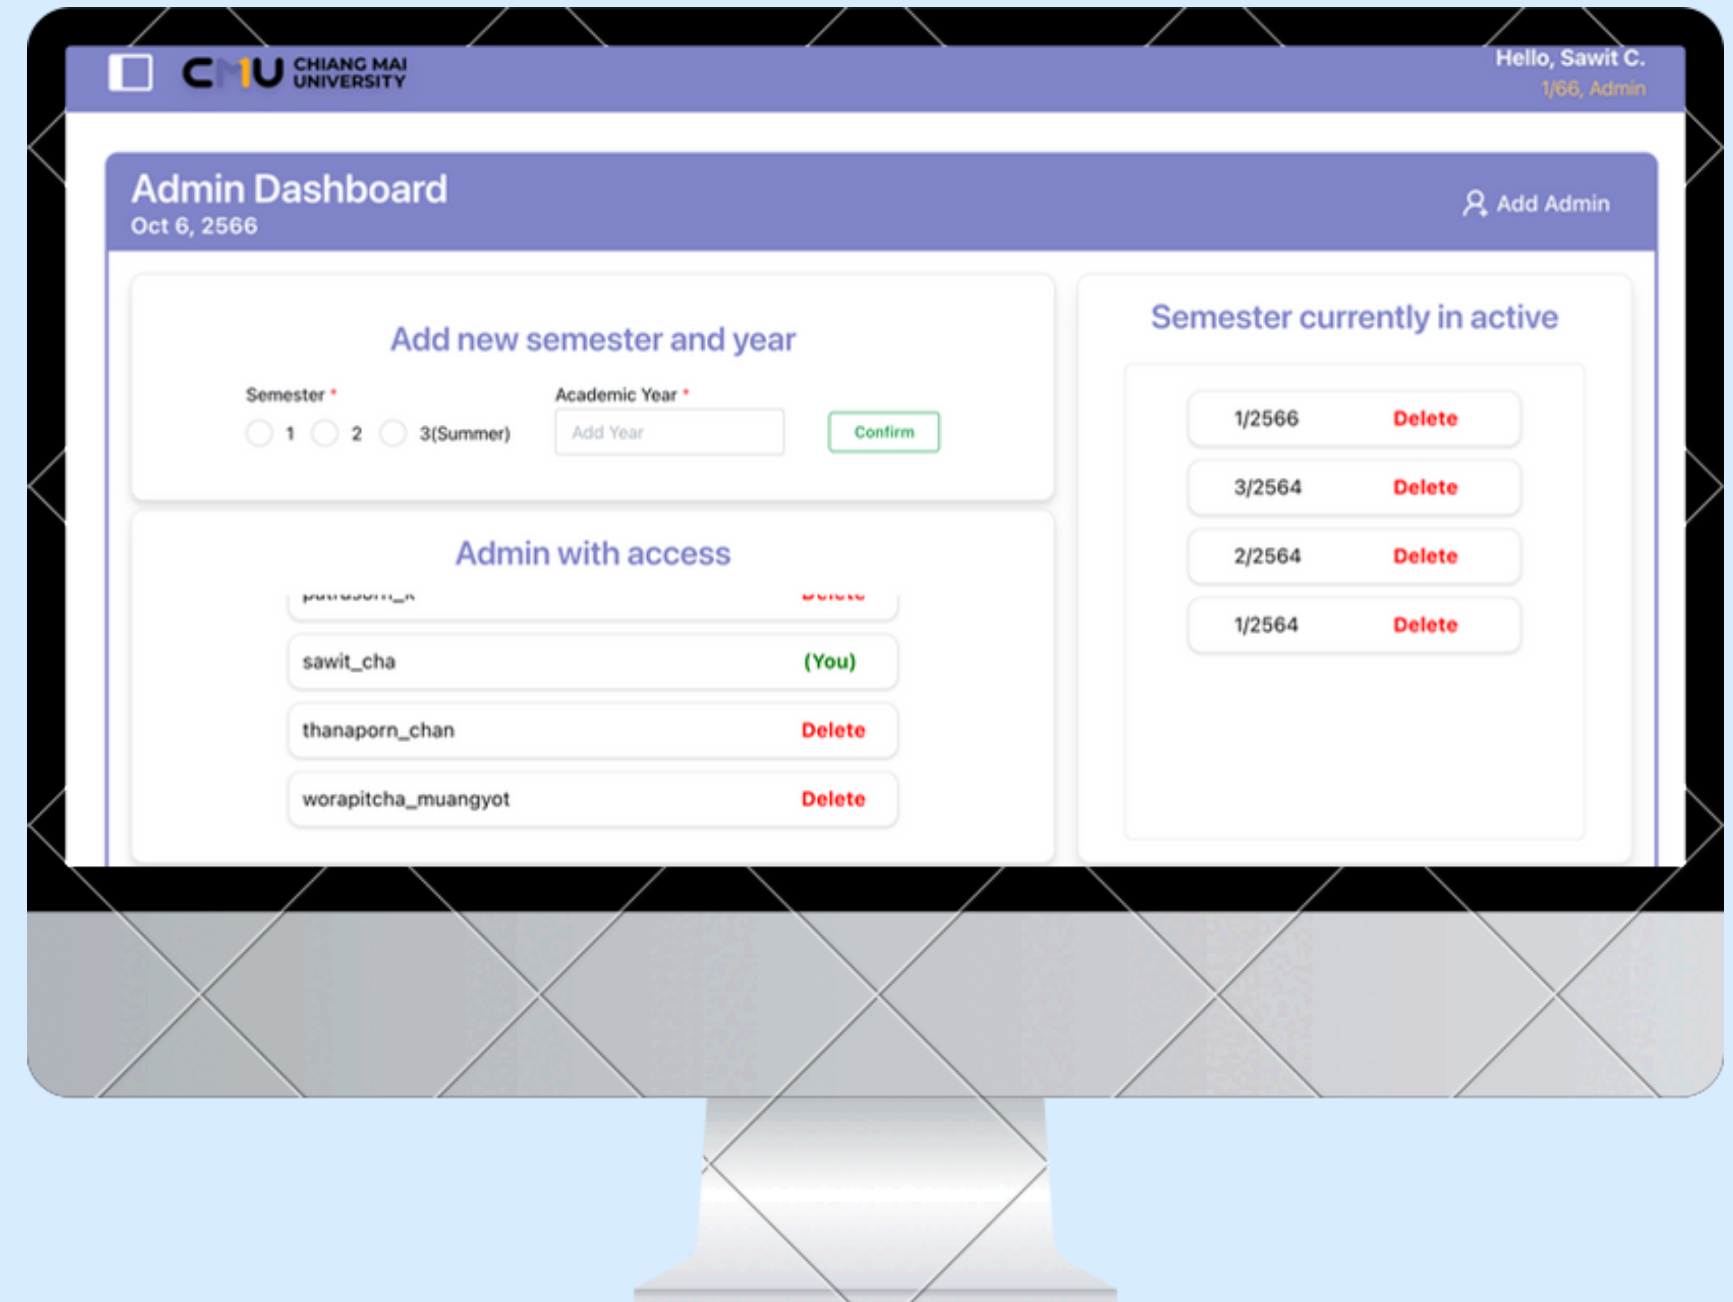

- Personal Score Access
- Statistical Values Display
- Subject-wise Score Graphs
- Responsive Display

# Function

## Admin

- Universal Page Access
- Academic Calendar Management
- Admin User Management
- Responsive Display
